## CURRENT ADDRESS

Decatur, Georgia 30034

## PERMANENT/SUMMER ADDRESS

Decatur, Georgia 30034

**OBJECTIVE:** Motivated Computer Engineering student leveraging technical skills in software development and data analysis to drive innovation and support company success

## EDUCATION:

Syracuse University – Syracuse, New York

Expected Graduation: May 2027

Bachelor of Science in Computer Engineering / Minor in Business

## RELEVANT COURSES:

- Python for Data Science (IBM)
- Accounting
- Computer Programming
- Application for Information Systems
- Introduction to SQL
- Networks and Cloud
- Developing Back End Apps with Node.js and Express
- Developing Front End Apps with React

## TECHNICAL/NON-TECHNICAL SKILLS:

- Microsoft Word, Excel, PowerPoint
- VS Code, Figma, Git/Github, Vite, ESLint
- JavaScript, HTML5, CSS, React, JSX
- Self-driven, Adaptability, Teamwork
- AI/ML, Prompt Engineering, Model Improvement
- SQL, Python, Node.js
- OCI DevOps Certification (*In Progress*)
- Certificate in Full Stack Development (Coursera, *In Progress*)

## PROJECTS/RESEARCH:

Gaming Sector Market Analysis

Data Analyst

January 2024 – May 2024

- Analyzed market trends using Python and web APIs, providing insights that shaped marketing strategies.
- Developed interactive visualizations with Folium to enhance data engagement.
- Created analysis and presentation materials for clear data interpretation.

Blockchain Technology Project

Blockchain Researcher

October 2023 – Jan 2024

- Collaborated with a team to integrate feedback and refine project features, enhancing overall functionality.
- Utilized Python and blockchain frameworks to develop solutions that addressed real-world challenges.

## EXPERIENCE:

Fiverr, Atlanta, GA

Freelance Front End Developer

May 2024 – Present

- Managed client communication to gather requirements and provide project updates.
- Developed custom websites using HTML, CSS, and JavaScript based on client specifications.
- Ensured responsive design for optimal user experience across devices.

Outlier AI, Atlanta, GA

Prompt Engineer

June 2024 – Present

- Increased AI accuracy by 25% through prompt analysis and benchmarking.
- Reduced computational time by 15% by refining prompts and scripts.
- Verified prompts across multiple programming languages, including Python and JavaScript, to ensure accuracy and effectiveness.

## VOLUNTEER EXPERIENCE:

McNair Mustangs, Atlanta, GA

JROTC Volunteer

Aug 2022 – May 2023

- Led fundraising events to support local charities, successfully raising \$1000 to benefit the community.
- Volunteered at local shelters and food drives, demonstrating commitment to community service.

## LEADERSHIP/ORGANIZATIONS:

Karim Kharbouch Coding Fellowship

Alumni

May 2023 – August 2024

- Dedicated 100+ hours to coding, mastering front-end development technologies such as HTML, CSS, and JavaScript.
- Contributed to collaborative coding projects, applying agile methodologies to improve teamwork and project delivery.

## INROADS

Talent Candidate

Sept 2023 – Present

- Attended networking events with industry professionals, building connections and gaining insights into career opportunities.
- Participated in leadership training sessions focused on enhancing communication, teamwork, and problem-solving skills.

## ACTIVITIES/AWARDS:

- WiTec (Syracuse University) Member Jan 2023 – Present
- Tech Student of the Year (Pine Cove) Recipient May 2023
- American Association of Blacks in Energy Recipient May 2023
